

WELCOME TO EAGLE CLASS!

We kick started our time in year 6 with our Roman topic! We had great fun with our learning and particularly enjoyed becoming ancient Romans for the day where we had a Roman banquet, tried typical Roman food and even had some gladiatorial battles with Mr Stamp!

Our next topic was focussing on S.T.E.M subjects and as part of this we designed and made electric vehicles and then raced them in the school hall!

We also made our very own Christmas music video, which was great fun.

Eagle Class Christmas Music Video

We all took part in the Cycling Proficiency Scheme and now feel fully confident riding our bikes on the roads.

We also learned about using camera angles and perspectives to create different effects.

Even though we didn't have SATS tests this year. We were still lucky enough to have a SATS breakfast!

We really enjoyed our topic about the Second World War. We found it incredibly interesting and particularly enjoyed all our hook days throughout the half term.

We had two evacuee days where we stayed in role as evacuees. We were given a tour of our new village and then picked up by our new families who made us do jobs for the day!

Towards the end of the half term we had our very own VE day celebration in the classroom. We were all surprised at how much we enjoyed the spam sandwiches.

In our final half term as year six children we went on a residential to Cobnor Activity Centre. We had so much fun camping and taking part in

lots of team building activities; such as raft building, bush craft, sailing, kayaking and climbing!

We ended our year by writing, directing and acting in our very own leaver's movie! We used green screen to import different backgrounds, just like they do in film studios. This was so much fun and went down brilliantly when it was shown to the parents as part of our leaver's assembly.
