

Welcome to Osprey Class

Class Teacher: Mrs Young

Teaching Assistant: Mrs Edwards

Autumn Term

This term we spent time looking at famous stories such as Goldilocks and the Three Bears, The Three Little Pigs, Little Red Riding Hood, Billy Goats Gruff and The Gingerbread Man. The children had lots of fun learning these stories and we used actions to help us perform them!

We dressed up as our favourite Fairy tale characters and had a fairy tale hunt around the school. We made Three Little Pig treats and even went for a picnic with the class teddy 'Marshmallow'!

After half-term, the children were invited to bring in their favourite toys on the first day back to share with their friends. We looked at toys from the past compared to toys now and created a class display.

We celebrated Harvest Festival, where we learnt a song to perform for our parents and collected food for the local charity Stonepillow.

We have been working hard in our maths lessons, splitting numbers into tens and ones to help us with our place value.

We learnt about the story of The Gruffalo in our English lessons and practised a Gruffalo dance that we performed for our parents and the rest of the school.

We made Gruffalo crumble, owl ice-cream and Gruffalo biscuits...yum!

Spring Term

This term the circus came to town!

We made a circus themed display and practised performing different circus acts including plate spinning, juggling, and walking on a beam.

We painted our faces to look like clowns...

...and made our own clowns using paper.

We learnt about different places of worship and ended the half-term with a visit to Thorney Island Church to meet the Padre.

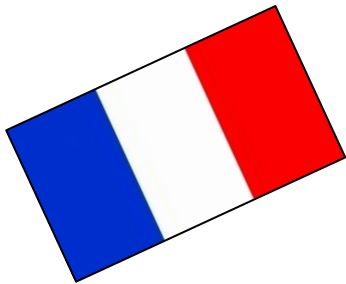

Food Glorious Food!

Each week of this half term we have cooked dishes from different countries!

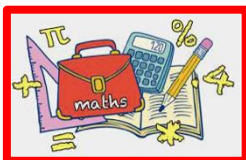

In the first week we made and tasted a full English breakfast and a French continental breakfast and compared the two.

We made our own pizza and cooked them in a clay oven.

In science we explored our senses and found out how important they can be!

In our maths lessons we practised numbers up to 50 and counting in 2's, 5's and 10's.

[illegible]

At Easter we hatched some chicks at school and enjoyed watching them grow and having lots of cuddles!

We had an Easter Bonnet competition at school and enjoyed eating chocolate Easter Eggs.

Summer Term

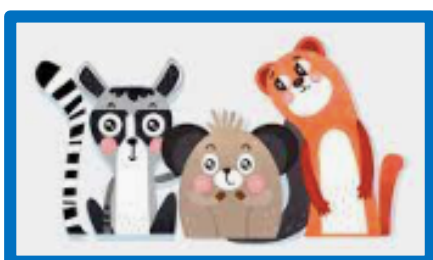

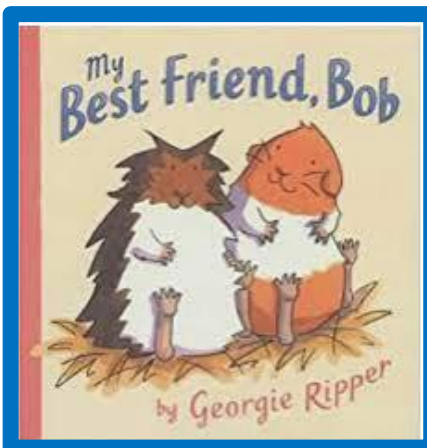

Next, we went on safari to the Animal Kingdom to learn all about different animals and their habitats.

We found out all about our class Guinea Pigs called Bob and Brian.

We listened to their special story and learnt how to keep all our pets happy and healthy.

We sorted animals according to where they lived, used our knowledge to design our own zoo... and then went on a visit to Marwell Zoo to meet the animals that live there.

In our maths lessons we worked with numbers up to 100 and practised splitting them into 1's, 10's and 100's.

Perilous Pirates!

Ahoy Mateys! It's time to batten down the hatches and set sail on the good ship Osprey for a pirate adventure. Here are the crew- shiver me timbers they do look like a scurvy bunch!

We had a pirate dressing-up day when we searched for treasure and made yummy pirate biscuits.
